CEOL PICCOLO (N4)

CEOL piccolo

NETWORK MUSIC SYSTEMS

NETWORK MUSIC SYSTEM WITH WI-FI AND ETHERNET CONNECTIVITY

The CEOL Piccolo is the latest generation of Denon's multi-award winning lifestyle Network Music system. The ultra-compact CEOL Piccolo fits almost anywhere and provides access to your music collection via your home internet, wherever it is stored – on computer, NAS (Network Attached Storage), or mobile device. With its own integrated Wi-Fi and Ethernet cable connection, it supports AirPlay® and lossless streaming of high definition music files (FLAC HD/WAV/AIFF/ ALAC) from the home network. The Piccolo also supports Bluetooth® streaming with NFC pairing, and features Spotify® Connect online music service and Internet radio. The front panel USB port connects iPhones, iPods (with

continuous battery charging even in standby mode), and other USB playback from USB memory drive or USB-HDD. Rear panel digital optical and analogue audio inputs connect digital TVs and almost any other audio device.

Denon's acclaimed digital amplifier design delivers a muscular 40 watts per channel to the all-new two-way hi-fidelity speakers, creating a high quality, room filling sound. The minimalist styling features an acrylic top-panel with controls conveniently positioned for bookshelf or tabletop placement. Full control of the system is also possible from the dedicated Denon Hi-Fi Remote App for iOS and Android.

Supports Wi-Fi Sharing (iOS devices), WPS (Wi-Fi Protected Setup)

Support for Wi-Fi Sharing (iOS devices) and WPS (Wi-Fi Protected Setup) makes wireless network connection of the CEOL Piccolo simple. Activating Wi-Fi Sharing on the CEOL Piccolo, it appears on-screen on an iOS device; at the press of a button the iOS device transmits the network name and password to the CEOL Piccolo and connection is complete. For network connection with Wi-Fi routers that support WPS, pressing the WPS button on the router automatically connects the CEOL Piccolo.

Supports WMM (Wi-Fi Multimedia)

As a WMM (Wi-Fi Multimedia) certified device, the CEOL Piccolo properly integrates within a home network with other network connected devices, such as computers, NAS drives and mobile devices. WMM ensures the best possible quality and reliability for digital audio streaming over a network, ensuring it has priority over and is not disrupted by less critical network data.

NEW FEATURES

- Supports Bluetooth and NFC
- Supports Spotify connect
- Gapless playback for AIFF/ALAC
- Supports 192kHz/24bit AIFF file
- Windows 8/RT Compatibility
- Wi-Fi 11n support
- Support for Wi-Fi Sharing with iOS device

Supports AirPlay® for iDevice and iTunes music streaming

With AirPlay® for iDevice and iTunes, it is a simple operation to instantly stream audio from any iDevice or iTunes running on a Mac or Windows PC, by clicking on the AirPlay icon and selecting the CEOL Piccolo.

Full digital processing amplifier

The powerful Full Digital Processing Amplifier incorporates on-board digital EQ processing, specifically tuned to optimize sound quality from the Denon SC-N4 two-way hi-fidelity speaker system. The speaker optimization can be disabled in the menu if the system is to be used with different speakers.

Bluetooth wireless streaming with NFC pairing for instant playback from mobile devices

Bluetooth® with NFC pairing enables audio to be streamed, almost instantly, from any Bluetooth enabled device, such as a smartphone, tablet or laptop. NFC pairing allows the user to tap any NFC enabled Bluetooth audio device for automatic pairing with no button pressing.

Denon SC-N4 speaker

These speakers in a very compact cabinet have been designed with Denon Hi-Fi craftsmanship. For best performance a high quality 10cm woofer / midrange chassis has been combined with a high definition tweeter and a crossover network with selected components to reproduce the smoothness of natural sound. The speaker has a high gloss finish and comes with a grill.

STATE-OF-THE-ART DENON SOLUTIONS FOR MAXIMISING CONTENT QUALITY

- High power output, 40W+40W (1kHz, 4ohm)
- Integrates Denon hi-fi component sound engineering into compact size
- "Simple & straight" circuit design and minimum signal path, to optimize performance in sound quality
- Fully digital concept from input signal to output power stage
- Optimising Filter, to align the DRA-N4 with SC-N4 speaker system characteristic
- Local sound-tuned 2 way speaker system
- iPhone / iPod playback via digital connection for high-quality sound

EASE-OF-USE

- Supports AirPlay® for iDevice and iTunes music streaming
- Bluetooth wireless streaming with NFC pairing for instant playback from mobile devices
- Supports Wi-Fi Sharing (iOS devices)
- Supports WPS (Wi-Fi Protected Setup)
- Supports WMM (Wi-Fi Multimedia)
- Front panel USB port for connecting iPhone, iPod, smartphones and USB memory drives
- Continuous iPod battery charge on USB port even in standby mode
- 3 line large OLED for clear and wide view
- Top-panel controls for convenient operation in bookshelf / table top placement
- Multi language Quick Setup guide on OLED
- Interactive CD-Rom manual

Technical information

DRA-N4	
Rated output power	40 W + 40 W (1 kHz, 4 ohms, 0.7% THD)
Dynamic output power	50 W + 50 W (4 ohms)
Network type (wireless LAN standards)	Conforming to IEEE 802.11b Conforming to IEEE 802.11g Conforming to IEEE 802.11n
General	
Power supply	AC 230 V, 50 Hz
Power consumption	45W (Standby: 0.3 W)
Colours	high gloss black / high gloss white
Dimensions (W x H x D)	200 x 90 x 240 mm
Weight	2.3 kg

SC-N4	
Type	2 way 2 speakers Reflex box
Drivers	10 cm cone bass-mid range x 1 2.5 cm dome tweeter x 1
Frequency response	50 Hz - 20 kHz
Impedance	6 ohms
Colours	high gloss black / high gloss white
Dimensions (W x H x D)	134 x 185 x 200 mm
Weight	1.9 kg

Ports

IN		
	USB	x 1
	Ethernet	x 1
	AUX in	x 1
	Digital Optical	x 1
OUT		
	Subwoofer pre out	x 1
	Speaker output terminals	x 2
	Headphones	x 1
