

### Eclipse '19 lifestyle enjoyment system

Choose a Marantz compact Eclipse '19 system and you will be entering a world where style, quality and performance are fused into one. Each component is built to the highest standards and expertly finished. Incredible attention to detail and no compromise construction ensures they faithfully capture the excitement and emotion of your kind of music. The Eclipse's elegant style with cutting-edge audio technology delivers an emotional audio experience that proves beautiful music can be beautifully reproduced. The Eclipse '19 is the pure and simple stereo system, with the SR110 stereo RDS tuner with FM/AM/LW reception, 50 random presets and a 2 x 25-watt stereo amplifier at its heart. This is combined with the versatile CD110 CD player that also plays CD-Rs and CD-RWs as well as MP3 recorded audio. The optional LS110 two-way speaker system is designed for a perfect match - in terms of design and performance.

because music matters

## Features:

- Slim and elegant listening pleasure
- MP3 playback
- CD-Text
- Random & Repeat modes
- Sleep & Timer function
- Headphone output

## Benefits:

- A fully equipped but compact system with true ease of use; listening to your favorite station, play CDs and matching hi-fi speakers
- Allows playback of MP3 discs which can contain up to 10 hours of compressed audio.
- Displays text information related to the disc, for example artist name, album title and track name
- Non-stop music played in a changing sequence makes your CD's sound different over and over again
- Dooze off and wake up with your favorite music or movie
- For personal music enjoyment without any disturbance from your environment

## Technological glossary:

### Pure musical enjoyment

The ultra-compact Eclipse units of the Eclipse '19 are perfect for today's space-conscious living. They are as easy to install as appealing to the eye and are comprehensive and easy to use. System displays can be dimmed, function select and source playback are available at the touch of a button and a remote control unit is also part of the package. The size and aspect ratio of the compact units and speaker enclosures ensure that when units are stacked or placed side-by-side, the Eclipse system looks as good as it sounds. Designed for high quality stereo playback, this system's two small units and matching LS110 speakers provide all you need for breathtaking sound quality from CD, MP-3 and radio.

### CD110

At its heart is the versatile CD110 CD player. As well as standard CDs, the unit can accommodate CD-R, CD-RW, CD-Text, and even MP3 music formats for you to play back at the press of a button.

### SR110

A 25 Watts per channel amplifier is all part of the SR110 receiver, providing sufficient power to illuminate the highs and lows in your music while preserving faithfully the finest of details and subtle intonations of a human voice, say, or the warm resonance of a saxophone's deepest notes. The SR110 also incorporates an advanced FM/MW/LW tuner. It's an RDS model and can serve up your favourite programs in an instant, by station name or broadcast type like pop, rock, classic, jazz, news and drama.

### D.Bus

Naturally, the system can be remotely controlled, and should you want to expand your options, there is the Marantz D.Bus on the back of each unit to provide sufficient extension possibilities: for example, hook up a CD-Recorder and you can benefit from professional-style synchro-recordings. All extensions to the Eclipse system are recognised automatically, providing real 'plug-and-play' installation with the minimum in cabling.

### Optional: LS110

The LS110 stereo speaker system is our entry-level recommendation. The enclosures are small and neat enough for positioning on bookshelves, or mounting unobtrusively on wall brackets and stands.

Their clean lines and compact size make them the ideal choice for Marantz Eclipse systems. Yet they are also available independently, for partnering other compact systems and for use as rear surround

speakers in high quality audio-video systems.

## Bypacked Accessories

- User manual SR110/ CD110
- Remote control
- Batteries
- FM antenna
- AM loop antenna
- 1 Pair audio cinch cable
- D.Bus cable
