

RC5400

## UNIVERSAL LEARNING REMOTE

Optional RX7001 RF Extender

The ultimate system controller.

The RC5400 comes preloaded with all of the Marantz IR codes and pages to operate your Marantz system right out of the box. It is also fully customizable so you can get design and create your own pages to really tailor the RC5400 to your system, and your family.

Add the optional RX7001 RF extender accessory, now your RC5400 will work even if some or all of your components are behind walls, or closed cabinet doors.

Allow the power of the RC5400 become the window to your system, and put that pile of remotes away in a drawer.
