

# MAC6700 stereo receiver

- MAC6700 is the finest stereo receiver ever produced by McIntosh. Superior engineering and innovative design now allow all stereo sources to be played.
- The 200 watts per channel amplifier has enough power to properly drive virtually all loudspeaker types. Utilizing the world famous McIntosh load matching Autoformer guarantees your speakers will always receive the full 200 watts of power.
- The built in AM/FM tuner receives your favorite radio stations with clarity and realism that is free from noise and distortion.
- Two dedicated phono sections will bring new life to your record collection and deliver the best possible sound from your turntable.
- The McIntosh Digital Engine will decode your digital music at up to 32 bits and 192kHz for classic analog fidelity.

A McIntosh Receiver for the Next Generation

## For the Consumer's Protection:

In order to ensure the highest level of customer satisfaction, "new" McIntosh products may only be purchased over-the-counter or delivered and installed by an Authorized McIntosh Dealer. McIntosh products that are purchased over the Internet, by phone or mail order are presumed to be "used" and do not qualify for any McIntosh Warranty. McIntosh does not warrant, in any way, products that are purchased from anyone who is not an Authorized Dealer or products that have had their serial number altered or defaced.

## Companion Products

The McIntosh MCD550 SACD/CD Player and XR50 Loudspeakers are logical companions for the MAC6700 Receiver. Your authorized dealer can provide additional information.
