

MB50 streaming audio player

- Transform your home audio system into a wireless audio system with the MB50 Streaming Audio Player. Simply connect it to your audio system and Wi-Fi network and then stream from your mobile device.
- The MB50 features DTS Play-Fi® technology to give you the freedom and flexibility to wirelessly play your music at home anyway you want over your existing Wi-Fi network.
- Analog and digital inputs let you to connect audio components to the MB50, allowing it to act as a mini-preamp.
- Besides accessing your personal music library, the Apple and Android apps have built-in support for many leading online streaming services including Amazon Prime Music, Deezer, KKBox, Pandora®, QQMusic, Rhapsody, SiriusXM®, Songza, Spotify® and TIDAL.¹
- Unlike many other streaming solutions, DTS Play-Fi provides lossless playback of up to 16-bit/48kHz files; it also has playback support for high-resolution music files up to 24-bit/192kHz.

1. All services may not be available in all regions; certain services may not yet be enabled for all apps; subscriptions may be required. List subject to change.

Combine MB50 with MXA70 Integrated Audio System for a complete streaming system solution. MXA70 sold separately.
