TGR1705

The 22GF432 is a record-player with transistor stereo amplifier in wooden case.  
For repairs and replacements of parts, see the Service Notes of the 22GC032, with the exception of the code numbers in the list of mechanical parts.

Technical data

Speeds	33 1/3-45-78
Supply voltage	110-127-220- 240 V - 50 Hz 22GF432/64: 60 Hz
Output power	1,7 W (d = 10 %)
Power consumption	14 W
Loudspeaker impedance	4 Ω
Semi-conductors	2xBA114-2xBC109 2xAC126 2xAC187/AC188/01
P. U. heads	GP308-GP310- GP224-GP228
Stylus pressure	4-6 gram
Dimensions	410x265x180 mm
