NIPPON COLUMBIA CO., LTD.

OPERATING INSTRUCTIONS

[TU-1500D/TU-1500RD]

• SAFETY PRECAUTIONS

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE.

● DECLARATION OF CONFORMITY

We declare under our sole responsibility that this product, to which this declaration relates, is in conformity with the following standards:
EN55013, EN55020, EN60555-2 and EN60555-3.

● ÜBEREINSTIMMUNGSERKLÄRUNG

Wir erklären unter unserer Verantwortung, daß dieses Produkt, auf das sich diese Erklärung bezieht, den folgenden Standards entspricht:
EN55013, EN55020, EN60555-2 und EN60555-3.

● DECLARATION DE CONFORMITÉ

Nous déclarons sous notre seule responsabilité que l'appareil, auquel se réfère cette déclaration, est conforme aux standards suivants:
EN55013, EN55020, EN60555-2 et EN60555-3.

● DICHIARAZIONE DI CONFORMITÀ

Dichiariamo con piena responsabilità che questo prodotto, al quale la nostra dichiarazione si riferisce, è conforme alle seguenti normative:
EN55013, EN55020, EN60555-2 e EN60555-3.
QUESTO PRODOTTO E' CONFORME
AL D.M. 28/08/95 N. 548

● DECLARACIÓN DE CONFORMIDAD

Declaramos bajo nuestra exclusiva responsabilidad que este producto al que hace referencia esta declaración, está conforme con los siguientes estándares:
EN55013, EN55020, EN60555-2 y EN60555-3.

● EENVORMIGHEIDSVERKLARING

Wij verklaren uitsluitend op onze verantwoordelijkheid dat dit product, waarop deze verklaring betrekking heeft, in overeenstemming is met de volgende normen:
EN55013, EN55020, EN60555-2 en EN60555-3.

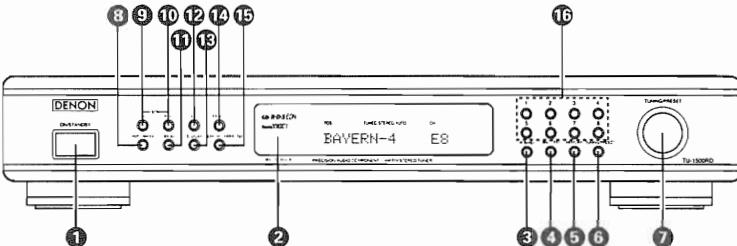

● ÖVERENSSTÄMMELSESYNTYG

Härmed intygas helt på eget ansvar att denna produkt, vilken detta intyg avser, uppfyller följande standarder:
EN55013, EN55020, EN60555-2 och EN60555-3.

● DECLARAÇÃO DE CONFORMIDADE

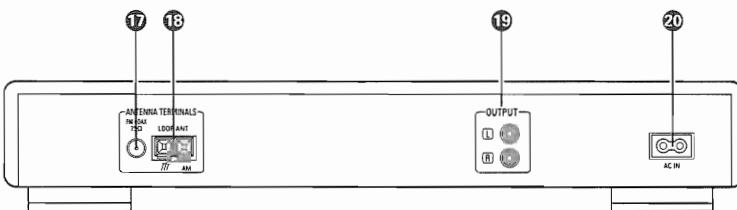

Declaramos sob nossa exclusiva responsabilidade que este produto, ao qual esta declaração corresponde, está em conformidade com as seguintes normas:
EN55013, EN55020, EN60555-2 e EN60555-3.

Note:
• Please keep away AM loop antenna from the metal parts of the back panel.

Hinweise:
• Die MW-Rahmenantenne (AM) darf die Metallteile der Geräte-Rückseite nicht berühren.

Remarque:
• Eloignez l'antenne en boucle AM de toute partie métallique du panneau arrière.

Nota:
• Tenete lontana antenna AM a quadro dalle parti metalliche del pannello posteriore.

- **(FOR WEAK SIGNAL RECEPTION)**
When an outdoor antenna is used, do not detach the lead wires of the loop antenna from the terminals.
- **(BEI SCHWACH EINFÄLLENDEN SIGNALEN)**
Wenn eine Außenantenne verwendet wird, Drahte der Rahmenantenne nicht von den Klemmen ab trennen.
- **(POUR RECEPTION D'ONDE FAIBLE)**
À l'emploi d'une antenne extérieure Ne pas débrancher les conducteurs de l'antenne cadre au niveau des bornes.
- **(PER UNA RICEZIONE DEI SEGNALI DEBOLI)**
Quando usate un'antenna esterna, non staccate i fili conduttori dell'antenna a quadro dai terminali.

DESIGNATIONS AND FUNCTIONS OF PANEL CONTROLS (Refer to Page 3.)
FRONT PANEL / REMOTE CONTROL UNIT
1 ON/STANDBY button

The unit works 2-3 seconds after this switch is turned on. Whenever the power switch is in the STANDBY state, the apparatus is still connected on AC line voltage. Please be sure to unplug the cord when you leave home for, say, a vacation.

2 Remote control sensor (REMOTE SENSOR)

This sensor receives the infrared light transmitted from the wireless remote control unit. For remote control, point the wireless remote control unit to the sensor. Some of the functions can be operated with the remote control unit RC-824.

3 IF BAND button

Use this button to select the bandwidth of the FM internal frequency amplifier "WIDE" or "NARROW". The wide or narrow position is indicated by the WIDE/NARROW indicator ④.

4 SHIFT/PTY button

Use this button to select the memory blocks, A (1 to 8), B (1 to 8), C (1 to 8), D (1 to 8), or E (1 to 8). For PTY search and EON PTY, use this button to select the program type. When writing station names, use this button to set the writing position.

5 MEMORY button

Frequencies and station names can be stored in the memory. When this button is pressed, the "MEMO" and "CH" indicator on the display flashes for 10 seconds. Use the SHIFT/PTY button and the preset channel buttons during this time to designate the desired preset channel.

6 TUNING/PRESET button

Each press of this button toggles the operation mode of the TUNING/PRESET control ⑤. In the TUNING mode, the "TUNING" indication of the fluorescent display tube is lit. In the PRESET mode, the "PRESET" indication of the fluorescent display tube is lit.

7 TUNING/PRESET control

This control is used in conjunction with the TUNING/PRESET button ⑤. In the TUNING mode (when "TUNING" is lit in the fluorescent display tube), the reception frequency is tuned up or down. Turning the control in the clockwise direction tunes the frequency up. Turning the control in the counterclockwise direction tunes the reception frequency down. In the PRESET mode (when "PRESET" is lit in the fluorescent display tube), the selection of the preset channel is moved up or down. The AUTO TUNING operation cannot be used when in this mode. When writing station names, use this control to select the letters. (Refer to Page 5.)

TUNING buttons (REMOTE CONTROL UNIT)

Use these to change the received frequency to a higher frequency (UP) or a lower frequency (DOWN).

CAUTION:

1. Whenever the ON/STANDBY button is in the STANDBY position, the unit is still connected on AC line voltage. Please be sure to unplug the cord when you leave home for, say, a vacation.
2. Noise may be generated if a near-by television set is on during MW (AM), FM broadcasting reception. The tuner should be used as far away from a television as possible.
3. Effective period of memory back-up is about a month under normal temperature.

NOTE:

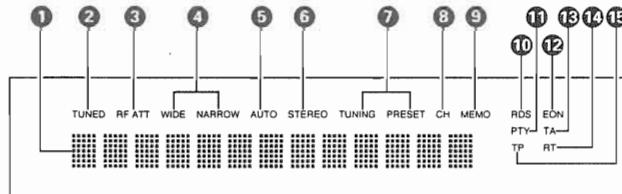

The buttons on the remote control unit marked "※" do not function on this model. (Nothing will happen when they are pressed.)

- ⑯ RF attenuator button (RF ATT)**
This button turns the RF attenuator on and off. When the RF attenuator is on, the "RF ATT" indicator on the display lights, and the antenna input signals are attenuated before entering the front end. Turn the RF attenuator on to receive local stations and when connecting to a cable system. Turn the RF attenuator off to receive weak signals.
This mode only functions in the FM band.
This mode setting is stored in the preset memory.

REAR PANEL

- ⑰ FM antenna terminals
(ANTENNA TERMINAL FM)**
75- Ω coaxial cables can be connected to these terminals. For the connection procedure, see the section "CONNECTIONS". (Refer to Page 6.)
- ⑱ AM antenna terminals
(ANTENNA TERMINAL AM/TTT)**
Connect the included AM loop antenna. (Refer to Page 6 for connections.)
Connect with this terminal when a medium wave outdoor antenna is used.

DISPLAY

- ① 5×7 dot matrix display**
This displays the frequency, station name, program type, etc.
- ② TUNED indicator**
This lights when a station is properly tuned in.
- ③ RF ATT indicator**
This lights when the RF attenuator is turned on (RF ATT ⑯).
- ④ WIDE/NARROW indicator**
This lights whether if amplifier stage is wide or narrow.
- ⑤ AUTO indicator**
This indicates the tuning mode. It lights in the auto mode, and remains off in the manual mode.
- ⑥ STEREO indicator**
This lights when receiving stereo broadcasts. It remains off when receiving AM broadcasts.
- ⑦ TUNING/PRESET indicator**
This displays the operation mode of TUNING/PRESET button ⑬.
- ⑧ CH indicator**
This lights when the preset channel number is displayed, and flashes during the auto preset memory operation and memory operation.
- ⑨ MEMO indicator**
This flashes for 10 seconds when the MEMORY button ⑩ is pressed, and flashes during the auto preset memory operation.
- ⑩ RDS indicator**
This lights when receiving RDS broadcasts, and flashes during the RDS search.
- ⑪ PTY indicator**
This lights when the EON PTY button is pressed, and flashes during the PTY search operation.
- ⑫ EON indicator**
This lights when receiving EON information.
- ⑬ TA indicator**
This lights when the EON TA button is pressed and when a traffic announcement is being received.
- ⑭ RT indicator**
This lights when the RT button is pressed.
- ⑮ TP indicator**
This lights when receiving a station broadcasting traffic announcements and flashes during the TP search operation.

- ⑯ Search character mode button
(SEARCH / CHARACTER)**
This button is used for the RDS search (refer to Page 11), PTY search (refer to Page 12) and TP search (refer to Page 12) operations, and to input the station name (refer to Page 11).
- ⑰ Preset channel button (1~8)**
Use these when presetting and recalling stations. Also use these with the SHIFT/PTY button to use a total of 40 preset channels, A (1~8), B (1~8), ... E (1~8).

PLAYBACK USING THE REMOTE CONTROL

The accessory RC-824 remote control unit is used to control the Tuner from a distance.

(1) Inserting the dry cell batteries

1. Remove the rear cover on the remote control unit.

2. Insert two size R6 (AA) dry cell batteries as shown in the diagram on the battery supply unit.

3. Replace the rear cover.

(2) Directions for use

Notes on Use of the Batteries

- The remote control unit uses size R6 (AA) dry cell batteries.
- The batteries will need to be replaced approximately once a year. This will depend upon how often the remote control is used.
- If, in less than a year from the time new batteries were inserted, the remote control fails to operate the Tuner from a near-by position, it is time to replace the batteries.
- Insert the batteries properly, following the diagram on the remote control battery supply unit, and making sure to align the plus and minus sides of each battery.
- Batteries are prone to damage and leakage. Therefore:
 - Do not combine new batteries with used ones.
 - Do not combine different types of batteries.
 - Do not jumper the opposite poles of the batteries, expose them to heat or break them open, or put them into open fire.
- When the remote control is not to be used for a long period of time, remove the batteries from the unit.
- If the batteries have leaked, remove any battery fluid from the inside of the battery supply unit by wiping it out thoroughly, and insert new batteries.

- Operate the remote control unit while pointing it towards the remote control sensor on the Tuner as shown in the diagram left.
- The remote control unit can be used at distances up to about 8 meters in a straight line from the Tuner. This distance will decrease if there are obstructions blocking the infra-red light transmission or if the remote control unit is not directed straight at the Tuner.

Note on Operation

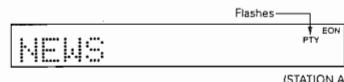

- Do not press the operating buttons on the Tuner and the remote control unit at the same time. This will cause misoperation.
- Operation of the remote control unit will become less effective or erratic if the infrared remote control sensor on the Tuner is exposed to strong light or if there are obstructions between the remote control unit and the sensor.
- In case you operate your VCR, TV or other components by remote control, do not operate buttons on two different remote control units at the same time. This will cause mis-operation.

6. EON PTY

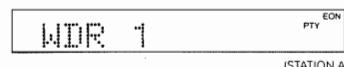

When an RDS station is broadcasting RDS information on other stations within the same network and a programme of the specified programme type (PTY) begins on a station in the same network, that network station is automatically tuned in. Use this function to tune in broadcasts of the desired programme type with priority.

Operation

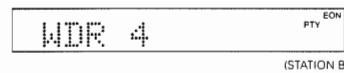

- Press the EON PTY button, and use the SHIFT/PTY button to select the programme type.

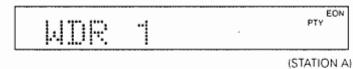

This mode is set five seconds after the programme type is selected.

(When a programme of the specified programme type begins on a station in the same network, that station is tuned in.)

(The previous station is tuned back in once a programme of a different programme type begins.)

- To change the programme type, first press the EON PTY button to cancel the EON PTY mode then set it again.

NOTE:

If the station switches from the current station to the network station broadcasting the specified programme type when this mode is on but the network station cannot be received properly due to weak signals, the previous station is immediately tuned back in.

NOTES:

- Be sure to turn the EON TA and EON PTY modes off when recording programmes.
- In the EON TA and EON PTY modes, if the station is switched from the current station to another station in the network but the signals of that network station are weak and it cannot be tuned in properly, "WEAK SIGNAL" is displayed and the original station is immediately tuned back in.
- In the EON TA mode, the station does not switch to another station in the network if the current station is broadcasting a traffic announcement.
- In the EON PTY mode, the station does not switch to another station in the network if the current station is broadcasting a programme of the same programme type.
- Since the RDS services offered differ from station to station, some RDS functions may not operate for some stations, but this is not a malfunction.

| Technical Data (typical value) | |
|--|--|
| • FM SECTION | |
| Frequency Range | 87.5 MHz ~ 108.0 MHz |
| Antenna Terminals | 75 Ω / ohm Unbalanced |
| Usable Sensitivity | 0.9 μV (10.3 dBf) 1.2 μV (10.0 dBf) |
| S/N 50 dB Sensitivity | |

TROUBLESHOOTING**Check the following before assuming there is a problem with the set.**

- Are all connections proper?
- Is the set being operated as described in the operating instructions?
- Are the speakers and input components being operated properly?

If the set does not seem to be operating properly, check the points listed below. If these points do not apply, the set may be damaged. Turn off the power immediately and contact your store of purchase.

| Symptom | Cause | Measures | Page |
|---|--|--|----------------------------|
| Power does not turn on when ON/STANDBY button is pressed. | • Power cord's plug is not plugged in to wall outlet. | • Plug the power cord in properly. | 6 |
| Hissing noise is heard on FM broadcasts. | • Antenna cable is not properly connected. • Antenna is not pointing in the right direction. • Radio waves are weak. | • Connect the leads properly. • Point the antenna in the right direction. • Install an outdoor antenna. | 6 6 6 |
| Hissing or buzzing sound is heard on AM broadcasts. | • Noise from a TV or interference in the signals sent from the broadcast station. | • Turn off the TV. • Change the position of the loop antenna. • Install an outdoor antenna. | 6 6 6 |
| Booming sound (humming) is heard in AM broadcasts. | • Signals transmitted over the power cord are modulated by the power source frequency. | • Insert the plug in the opposite direction. • Install an outdoor antenna. | 6 6 |
| Nothing happens when remote control buttons are pressed. | • Are the batteries dead? • Is the remote control unit too far away? • Is there an obstacle between the remote control unit and the main unit? • You have pressed the wrong button. • Batteries are not set in their proper direction (+ and -). | • Replace the batteries with new ones. • Operate from closer to the main unit. • Remove the obstacle. • Press the desired button. • Set the batteries in the proper direction (+ and -). | 10 10 10 10 10 |

• SAFETY PRECAUTIONS

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE.

• 安全注意事項

注意：為減少觸電危險，切勿拆下機殼（或機背）。機身內並無用戶修理用零件。請交由專業修理人員修理本機。

三角形內有箭頭的閃電符號旨在提醒用戶，本產品機殼內有未經絕緣的“危險電壓”，其幅度足以使人觸電而發生危險。

三角形內加感嘆號旨在提醒用戶，有重要的操作與維修說明書配合本機。

警告：為減少着火或觸電危險，切勿壞本機受雨淋濕或受潮。

目錄

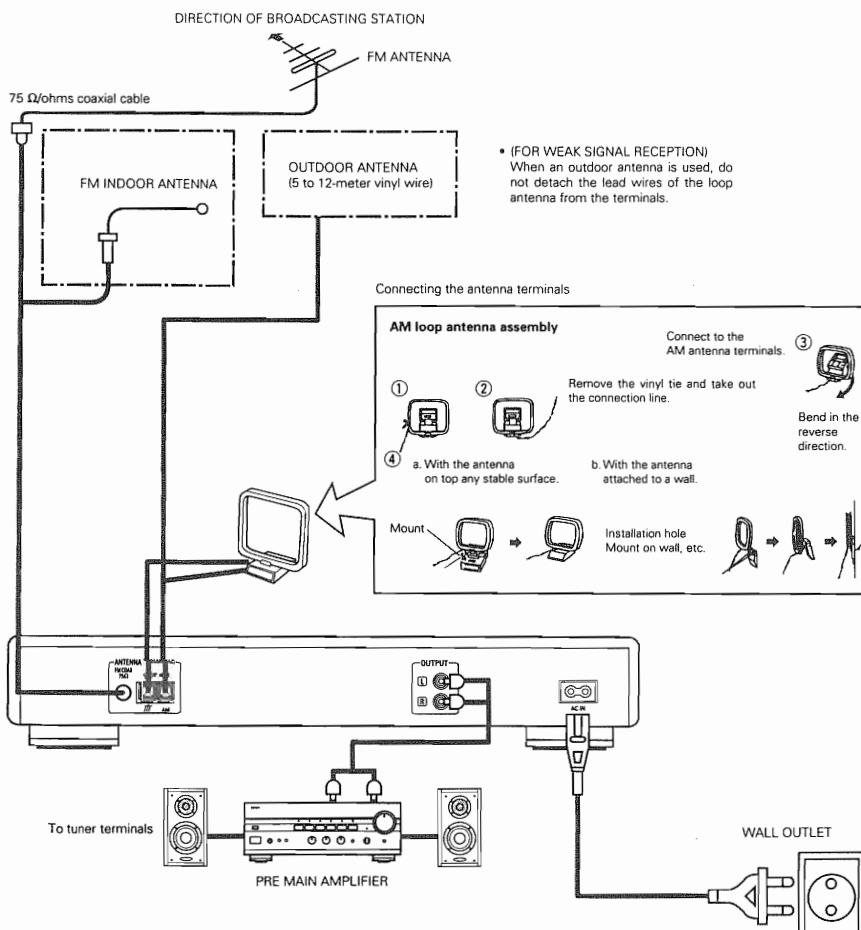

NOTE ON USE

| | | |
|--|---|---|
| <ul style="list-style-type: none"> Keep the set free from moisture, water, and dust. | <ul style="list-style-type: none"> Avoid high temperatures. Allow for sufficient heat dispersion when installed on a rack. | <ul style="list-style-type: none"> Do not let foreign objects in the set. |
| <ul style="list-style-type: none"> Unplug the power cord when not using the set for long periods of time. | <ul style="list-style-type: none"> (For sets with ventilation holes) Handle the power cord carefully. Hold the plug when unplugging the cord. Do not obstruct the ventilation holes. | <ul style="list-style-type: none"> Do not let insecticides, benzene, and thinner come in contact with the set. |
| | | <ul style="list-style-type: none"> Never disassemble or modify the set in any way. |
| | | |

使用注意事項

| | | |
|---|---|---|
| <p>注意溫度、水與塵</p> <ul style="list-style-type: none"> 勿將本機放置於受烈日曝曬或靠近發熱器材的位置。花瓶或其它有水的物件均不宜擺在本機上方。 | <p>防止高溫</p> <ul style="list-style-type: none"> 勿將本機放置於受烈日曝曬或靠近發熱器材的位置。 <p>機架／機箱安裝注意</p> <ul style="list-style-type: none"> 避免將本機置於密閉的機架內。 對於機架或機箱時，要配備足夠大的通風孔，以加強散熱。 | <p>勿讓雜物掉入機內</p> <ul style="list-style-type: none"> 特別要留意勿讓針、髮夾、硬幣等進入本機。 |
| <p>當你外出時</p> <ul style="list-style-type: none"> 長時間不用本機時，例如外出旅行時，須將插頭拔離電源插座。 | <p>* 備有通風孔的機殼</p> | <p>保護機殼</p> <ul style="list-style-type: none"> 避免在本機附近噴灑殺蟲劑，也勿用汽油、天拿水或其它溶劑抹機殼，因這類溶液易引起品質或顏色改變。抹藥要用軟布，在用化學藥理過的布揩抹時請小心遵守說明書規定。 |
| <p>留意電源線</p> <ul style="list-style-type: none"> 從插座拔出插頭時切勿接電源線，應該抓住插頭將其拔出。 | <p>勿堵塞通風孔</p> <ul style="list-style-type: none"> 堵塞通風孔會損壞本機。 各通風孔對本機內部散熱異常重要。必須特別留意。若通風孔有物件阻擋，就會使機內溫度升得很高。 | <p>勿打開機殼</p> <ul style="list-style-type: none"> 打開機殼頂蓋或底板，及伸手入機殼內部是危險的。切勿打開機殼。如果本機表現有不良當時，宜立刻拔下電源插頭，再與購入本機的商店或鄰近經銷商聯絡。 |
| | | |

CONNECTIONS

Note:

- Please keep away AM loop antenna from the metal parts of the back panel.

Using the Various Functions

1. Using the auto preset memory function

This function automatically stores the FM stations which can be received in the area in which the set is being used in the preset memory.

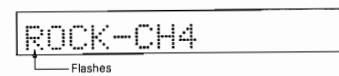

Operation

- Connect the FM antenna and set it so that FM stations can be received.
- Press the ON/STANDBY button to turn on the power while holding in the MEMORY button.
- Searching begins automatically, and stations are stored in the preset memory in order, beginning from channel A1. (The operation automatically stops once 40 stations have been set in the memory.)

- Press the SHIFT button to move the cursor to the next place.
(The cursor flashes at the second place.)

- Repeat steps 2 and 3 above to input up to 8 characters.

2. Storing new stations at the preset channels

The reception frequency, Tuning mode and input characters can be stored at the different channel memories.

When this operation is performed, the station already stored in that channel memory using the auto preset memory function is cleared.

Operation

- Press the MEMORY button. (The MEMO indicator flashes.)
- Use the SHIFT button to select the block, A to E.
- Use buttons 1 to 8 to select the channel at which the station is to be stored.

- The characters are set five seconds after the input procedure is finished. The input characters can be stored in the memory.

To keep the input characters, be sure to store them in a channel memory.

- Clearing characters.**
 - Recall the character you want to clear.
 - Press the CHARACTER button 4 times until the character at the first place flashes.
 - Then press the SHIFT button for at least 2 seconds. The current character will be cleared.

3. Recalling preset channels

Use the following operation to recall preset channels:

Operation

- Use the SHIFT button to select the block, A to E.
- Use buttons 1 to 8 to select the channel at which to store the station.

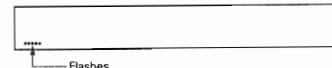

4. Inputting characters

Some characters can be input (up to 8 characters).

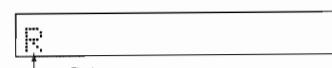

The input characters can be stored at the preset channels.

Operation

- Press the CHARACTER button four times.
(The cursor flashes at the first place.)

- Use the TUNING/PRESET control to select the character for the first place.
(The selected character flashes.)

TROUBLESHOOTING

Check the following before assuming there is a problem with the set.

1. Are all connections proper ?
2. Is the set being operated as described in the operating instructions ?
3. Are the speakers and input components being operated properly ?

If the set does not seem to be operating properly, check the points listed below. If these points do not apply, the set may be damaged. Turn off the power immediately and contact your store of purchase.

| Symptom | Cause | Measures | Page |
|---|--|---|------|
| Power does not turn on when ON/STANDBY button is pressed. | <ul style="list-style-type: none">• Power cord's plug is not plugged in to wall outlet. | <ul style="list-style-type: none">• Plug the power cord in properly. | 6 |
| Hissing noise is heard on FM broadcasts. | <ul style="list-style-type: none">• Antenna cable is not properly connected.• Antenna is not pointing in the right direction.• Radio waves are weak. | <ul style="list-style-type: none">• Connect the leads properly.• Point the antenna in the right direction.• Install an outdoor antenna. | 6 |

| Symbol | Function |
|-----------------|---|
| V _{dd} | Power terminal +5V |
| V _{ss} | Power terminal GND |
| V _{fl} | Power terminal FL drive |
| DI | Serial data transfer terminal DI: Data |
| CL | Clock |
| CE | Chip enable |
| OSCI | External CR connecting terminal |
| OSCO | External CR connecting terminal |
| RES | System reset terminal |
| AM1~AM35 | Anode output terminal |
| AA1~AA3 | Anode output terminal |
| AA4/G16 | Anode/Grid output terminal |
| AA5/G15 | Anode/Grid output terminal |
| AA6/G14 | Anode/Grid output terminal |
| AA7/G13 | Anode/Grid output terminal |
| AA8/G12 | Anode/Grid output terminal |
| G1~G11 | Grid output terminal |
| TEST | LSI test terminal |

SAA6579T (IC106)

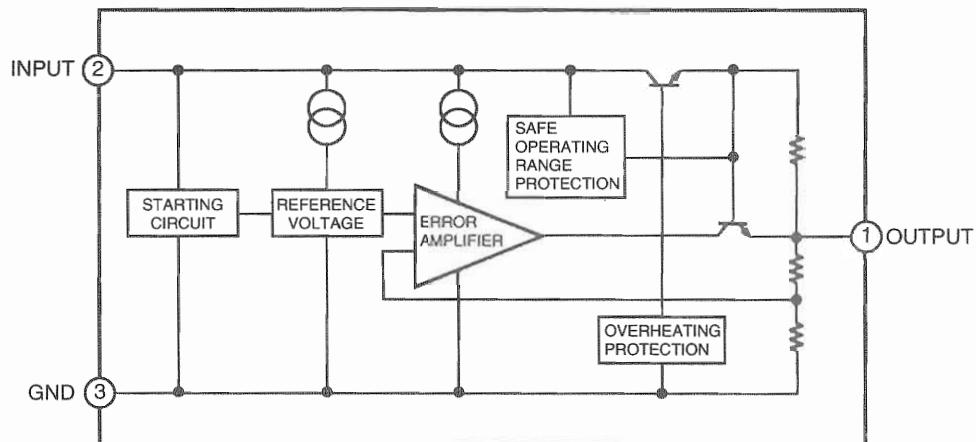

| Pin No. | Symbol | Description |
|---------|--------|---|
| 1 | QUAL | Quality indication output. |
| 2 | RDDA | RDS data output. |
| 3 | Vref | Reference voltage output (0.5 VDDA). |
| 4 | MUX | Multiplex signal input. |
| 5 | VDDA | +5V supply voltage for analog part. |
| 6 | VSSA | Ground for analog part (0V). |
| 7 | CIN | Subcarrier input to comparator. |
| 8 | SCOUT | Subcarrier output of reconstruction filter. |
| 9 | TSTLD | Test control. |
| 10 | TEST | Test enable. |
| 11 | VSSD | Ground for digital part (0V). |
| 12 | VDDD | +5V supply voltage for digital part. |
| 13 | OSCI | Oscillator input. |
| 14 | OSCO | Oscillator output. |
| 15 | T57 | 57 kHz clock signal output. |
| 16 | RDCL | RDS clock output. |

DISASSEMBLY

(Follow the procedure below in reverse order when reassembling)

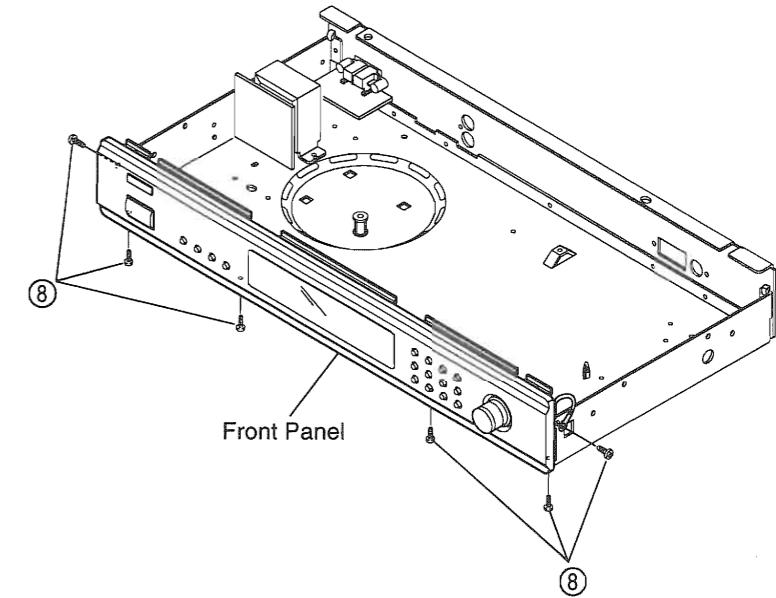

Top Cover

1. Remove 6 screws ① fixing the Top Cover.
(4 on both sides, 2 on the rear)
2. Detach the Top Cover, moving backwards a little and lifting it as shown in the arrow direction.

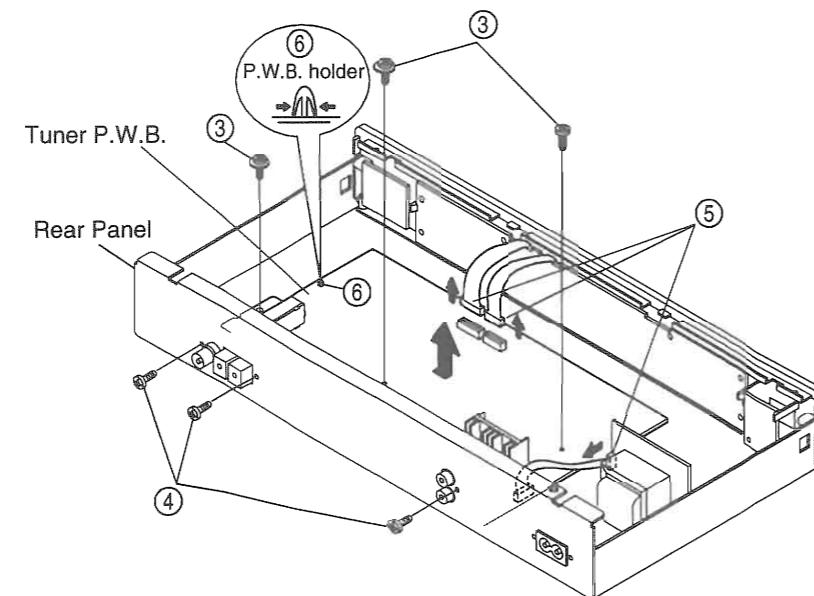

Front Panel

1. Remove 6 screws ⑧ fixing the Front Panel.
(2 on both sides, 4 on the bottom)

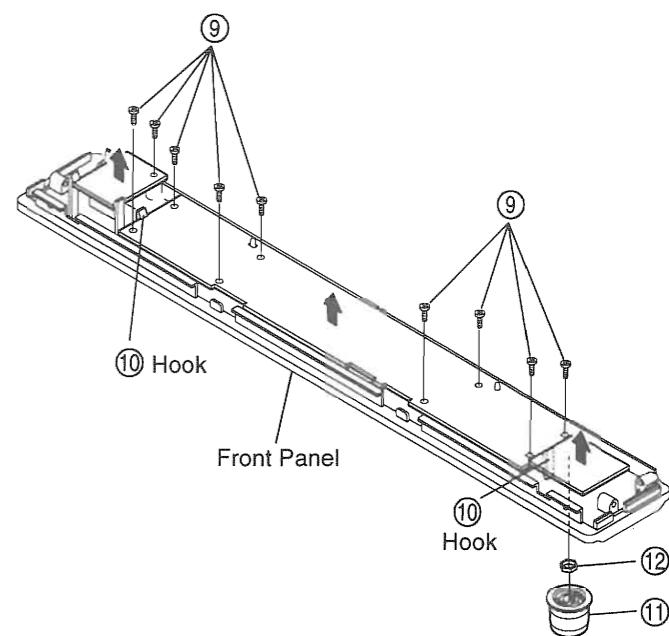

Tuner P.W.B.

1. Remove 3 screws ③ fixing the Tuner P.W.B.
2. Remove 3 screws ④ on the rear.
3. Disconnect 3 connectors ⑤.
4. Release the Tuner P.W.B. from P.W.B. holder ⑥.

2. Remove 9 screws ⑨ fixing each P.W.B.
3. Detach the 1U-3091-2 P.W.B. from the Front Panel as shown in the arrow by releasing 2 hooks ⑩.
4. Detach the 1U-3091-5 and 1U-3091-6 P.W.B.s from the Front Panel as shown in the arrow, after pulling out tuning knob ⑪ and removing nut ⑫.

**NOTICE**

ALL RESISTANCE VALUES IN OHM. k=1,000 OHM M=1,000,000 OHM
 ALL CAPACITANCE VALUES IN MICRO FARAD. P=MICRO-MICRO FARAD
 EACH VOLTAGE AND CURRENT ARE MEASURED AT NO SIGNAL INPUT CONDITION.

CIRCUIT AND PARTS ARE SUBJECT TO CHANGE WITHOUT PRIOR NOTICE.

WARNING:

Parts marked with this symbol have critical characteristics.
 Use ONLY replacement parts recommended by the manufacturer.

CAUTION:

Before returning the unit to the customer, make sure you make either (1) a leakage current check or (2) a line to chassis resistance check. If the leakage current exceeds 0.5 millamps, or if the resistance from chassis to either side of the power cord is less than 240 kohms, the unit is defective.

WARNING:

DO NOT return the unit to the customer until the problem is located and corrected.
