**CLASS 1
LASER PRODUCT**

PHILIPS

HANDLING CHIP COMPONENTS

GB WARNING

All ICs and many other semiconductors are susceptible to electrostatic discharges (ESD). Careless handling during repair can reduce life drastically. When repairing, make sure that you are connected with the same potential as the mass of the set via a wristband with resistance. Keep components and tools at this potential.

F ATTENTION

Tous les IC et beaucoup d'autres semi-conducteurs sont sensibles aux décharges statiques (ESD). Leur longévité pourrait être considérablement écourtée par le fait qu'aucune précaution n'est prise à leur manipulation. Lors de réparations, s'assurer de bien être relié au même potentiel que la masse de l'appareil et enfile le bracelet servi d'une résistance de sécurité. Veiller à ce que les composants ainsi que les outils que l'on utilise soient également à ce potentiel.

GB

Safety regulations require that the set be restored to its original condition and that parts which are identical with those specified be used.

Safety components are marked by the symbol

F

Les normes de sécurité exigent que l'appareil soit remis à l'état d'origine et que soient utilisées les pièces de rechange identiques à celles spécifiées.

Les composants de sécurité sont marqués

DANGER: Invisible laser radiation when open.
AVOID DIRECT EXPOSURE TO BEAM.

S Varning !

Osynlig laserstrålning när apparaten är öppnad och spärren är urkopplad. Betrakta ej strålen.

Advarsel !

Usynlig laserstrålning ved åbning når sikkerhedsafbrydere er ude af funktion. Undgå udsættelse for stråling.

ESD

NL WAARSCHUWING

Alle IC's en vele andere halfgeleiders zijn gevoelig voor electrostatische ontladingen (ESD). Onzorgvuldig behandelen tijdens reparatie kan de levensduur drastisch doen verminderen. Zorg ervoor dat u tijdens reparatie via een polsband met weerstand verbonden bent met hetzelfde potentiaal als de massa van het apparaat. Houd componenten en hulpmiddelen ook op ditzelfde potentiaal.

I AVVERTIMENTO

Tutti IC e parecchi semi-conduttori sono sensibili alle scariche statiche (ESD). La loro longevità potrebbe essere fortemente ridotta in caso di non osservazione della più grande cauzione alla loro manipolazione. Durante le riparazioni occorre quindi essere collegato allo stesso potenziale che quello della massa dell'apparecchio tramite un braccialetto a resistenza. Assicurarsi che i componenti e anche gli utensili con quali si lavora siano anche a questo potenziale.

NL

Veiligheidsbepalingen vereisen, dat het apparaat in zijn oorspronkelijke toestand wordt teruggebracht en dat onderdelen, identiek aan de gespecificeerde, worden toegepast. De Veiligheidsonderdelen zijn aangeduid met het symbool

I

Le norme di sicurezza estigono che l'apparecchio venga rimesso nelle condizioni originali e che siano utilizzati i pezzi di ricambio identici a quelli specificati. Componenti di sicurezza sono marcati con

CLASS 1 LASER PRODUCT

GB

After servicing and before returning the set to customer perform a leakage current measurement test from all exposed metal parts to earth ground, to assure no shock hazard exists.

The leakage current must not exceed 0.5mA.

F

Pour votre sécurité, ces documents doivent être utilisés par des spécialistes agréés, seuls habilités à réparer votre appareil en panne".

FIN Varoitus !

Avatussa laitteessa ja suojalukitukseen ohittaa olet alittina näkymätöimälle laserisäteilylle. Älä katso säteeseen !

INFORMATION ABOUT LEAD-FREE SOLDERING

Philips CE is producing lead-free sets from 1.1.2005 onwards.

IDENTIFICATION:

Regardless of special logo (not always indicated) one must treat all sets from **1 Jan 2005** onwards, according next rules:

Example S/N:

Bottom line of typeplate gives a 14-digit S/N. Digit 5&6 is the year, digit 7&8 is the week number, so in this case 2005 wk12

So from **0501** onwards = from 1 Jan 2005 onwards

Important note: In fact also products of year 2004 must be treated in this way as long as you avoid mixing solder-alloys (leaded/lead -free). So best to always use SAC305 and the higher temperatures belong to this.

Due to lead-free technology some rules have to be respected by the workshop during a repair:

- Use only lead-free solder alloy Philips SAC305 with order code 0622 149 00106. If lead-free solder-paste is required, please contact the manufacturer of your solder-equipment. In general use of solder-paste within workshops should be avoided because paste is not easy to store and to handle.
- Use only adequate solder tools applicable for lead-free solder alloy. The solder tool must be able
 - To reach at least a solder-temperature of 400°C,
 - To stabilize the adjusted temperature at the solder-tip
 - To exchange solder-tips for different applications.
- Adjust your solder tool so that a temperature around 360°C – 380°C is reached and stabilized at the solder joint. Heating-time of the solder-joint should not exceed ~ 4 sec. Avoid temperatures above 400°C otherwise wear-out of tips will rise drastically and flux-fluid will be destroyed. To avoid wear-out of tips switch off un-used equipment, or reduce heat.
- Mix of lead-free solder alloy / parts with leaded solder alloy / parts is possible but PHILIPS recommends strongly to avoid mixed solder alloy types (leaded and lead-free).
If one cannot avoid or does not know whether product is lead-free, clean carefully the solder-joint from old solder alloy and re-solder with new solder alloy (SAC305).
- Use only original spare-parts listed in the Service-Manuals. Not listed standard-material (commodities) has to be purchased at external companies.
- Special information for BGA-ICs:
 - always use the 12nc-recognizable soldering temperature profile of the specific BGA (for de-soldering always use the lead-free temperature profile, in case of doubt)
 - lead free BGA-ICs will be delivered in so-called 'dry-packaging' (sealed pack including a silica gel pack) to protect the IC against moisture. After opening, dependent of MSL-level seen on indicator-label in the bag, the BGA-IC possibly still has to be baked dry. (MSL=Moisture Sensitivity Level). This will be communicated via AYS-website.
 Do not re-use BGAs at all.
- For sets produced before 1.1.2005 (except products of 2004), containing leaded solder-alloy and components, all needed spare-parts will be available till the end of the service-period. For repair of such sets nothing changes.
- On our website www.atyourservice.ce.Philips.com you find more information to:
 - * BGA-de-/soldering (+ baking instructions)
 - * Heating-profiles of BGAs and other ICs used in Philips-sets

You will find this and more technical information within the "magazine", chapter "workshop news".

For additional questions please contact your local repair-helpdesk.

SERVICE INSTRUCTION

Safety regulations require that after a repair, the set must be returned in its original condition. Pay in particular attention to the following points:

- Route the wire trees correctly and fix them with the mounted cable clamps.
- Check the insulation of the AC Power lead for external damage.
- Check the strain relief of the AC Power cord for proper function.
- Check the electrical DC resistance between the AC Power Plug and the secondary side (only for sets which have a AC Power isolated power supply):
- Unplug the AC Power cord and connect a wire between the two pins of the AC Power plug.
- Set the AC Power switch to the "on" position (keep the AC Power cord unplugged!).
- Measure the resistance value between the pins of the AC Power plug and the metal shielding of the tuner or the aerial connection on the set. The reading should be larger than 4.5 Mohm (For U.S. it should be between 4.2 Mohm and 12 Mohm).
- Switch "off" the set, and remove the wire between the two pins of the AC Power plug.
- Check the cabinet for defects, to avoid touching of any inner parts by the customer.

GENERAL

Mains voltage	-/55 /98 : 120/230 V -/93 : 220V -/94 : 230 V -/61 : 220 V	Tuning range : 520 - 1600 kHz IF frequency : 453 kHz ±3 kHz Sensitivity : < 72 dBµV/m at 26dB S/N Selectivity : > 16 dB IF rejection : > 24 dB Image rejection ratio : > 28 dB Channel difference : 3dB (limit) Overall frequency response : 120Hz (limit) 1.1kHz
Mains frequency	-/55/98 : 60 / 50 Hz -/93 : 50 Hz -/94 : 50 Hz -/61 : 50 Hz	
Battery Power consumption	mains : 9 V (R14 x 6) : 15W	

AMPLIFIER

Output power	mains : 2 x 1 W battery : 2 x 1 W
Speaker impedance	: 2 x 8 ohm

TUNER - FM SECTION

Tuning range	: 87.5 - 108 MHz
IF frequency	: 10.7 MHz±0.3MHz
Sensitivity	: < 14 dBµV at 26dB S/N
Selectivity S9/300kHz	: > 20 dB
IF rejection	: > 50 dB
Image rejection	: > 20 dB
-3dB limiting point	: 18dBµV (limit)
Distortion	: 5% (nom.) : 10% (limit)

TUNER - MW SECTION

	Tuning range : 520 - 1600 kHz IF frequency : 453 kHz ±3 kHz Sensitivity : < 72 dBµV/m at 26dB S/N Selectivity : > 16 dB IF rejection : > 24 dB Image rejection ratio : > 28 dB Channel difference : 3dB (limit) Overall frequency response : 120Hz (limit) 1.1kHz
--	---

AUDIO CASSETTE RECORDER

Number of tracks	: 1 stereo
Tape speed	: 4.76 cm/sec + 3/-2%
Wow & flutter	: < 0.4 % JIS Unwtd.
Fast wind/rewind C60	: < 130 sec.
Frequency response	P/B : 100 - 8000 Hz
S/N ratio	: > 36 dB

COMPACT DISC

S/N ratio unwtd.	: > 50 dB
Channel difference	1 kHz : < 2 dB
Crosstalk	1 kHz : > 30 dB
Frequency response	: ±2dB at 100Hz
THD(1kHz,0dB)	: 1.5%

SERVICE TOOLS

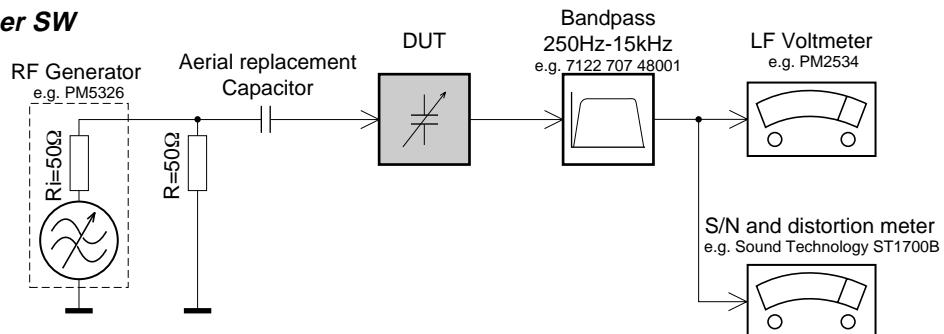

Audio signal disc SBC 429.....	4822 397 30184
Playability test disc SBC 444.....	4822 397 30245
Test disc 5 (disc without errors) +	
Test disc 5A (disc with dropout errors, black spots and fingerprints)	
SBC 426/426A.....	4822 397 30096
Burn in test disc (65 min. 1kHz signal at -30 dB level without "pause")....	4822 397 30155

AVAILABLE ESD PROTECTION EQUIPMENT

anti-static table mat	large 1200x650x1.25mm	4822 466 10953
	small 600x650x1.25m	4822 466 10958
anti-static wristband		4822 395 10223
connection box (3 press stud connections, 1MΩ)		4822 320 11307
extendible cable (2m, 2MΩ, to connect wristband to connection box)		4822 320 11305
connecting cable (3m, 2MΩ, to connect table mat to connection box)		4822 320 11306
earth cable (1MΩ, to connect any product to mat or to connection box)		4822 320 11308
KIT ESD3 (combining all 6 prior products - small table mat)		4822 310 10671
wristband tester		4822 344 13999

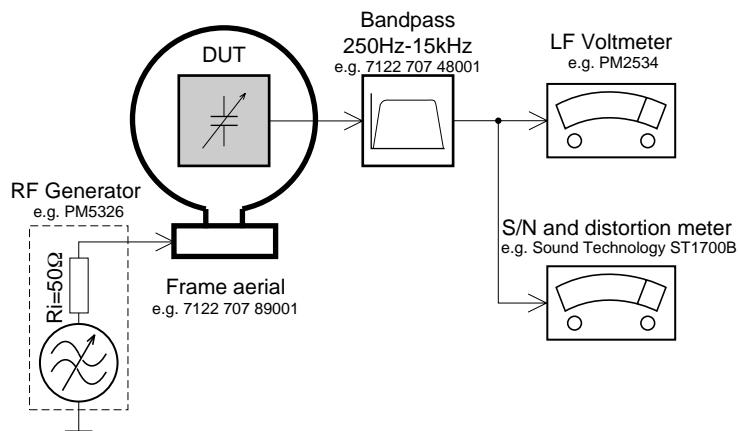

SERVICE MEASUREMENT

Tuner SW

To avoid atmospheric interference all AM-measurements have to be carried out in a Faraday's cage.
Use a bandpass filter (or at least a high pass filter with 250Hz) to eliminate hum (50Hz, 100Hz).

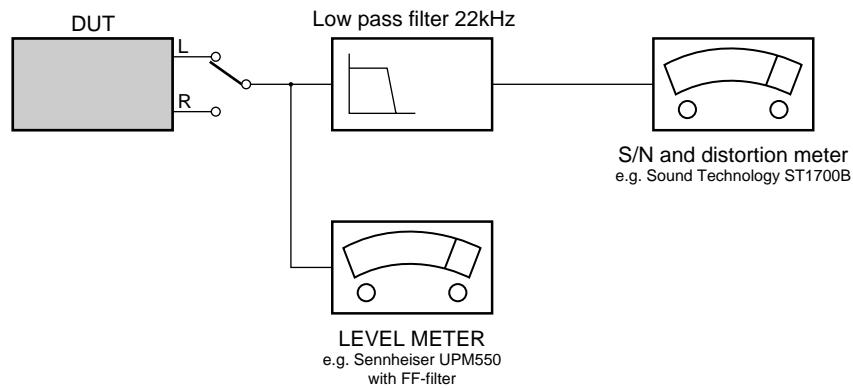

Tuner AM (MW,LW)

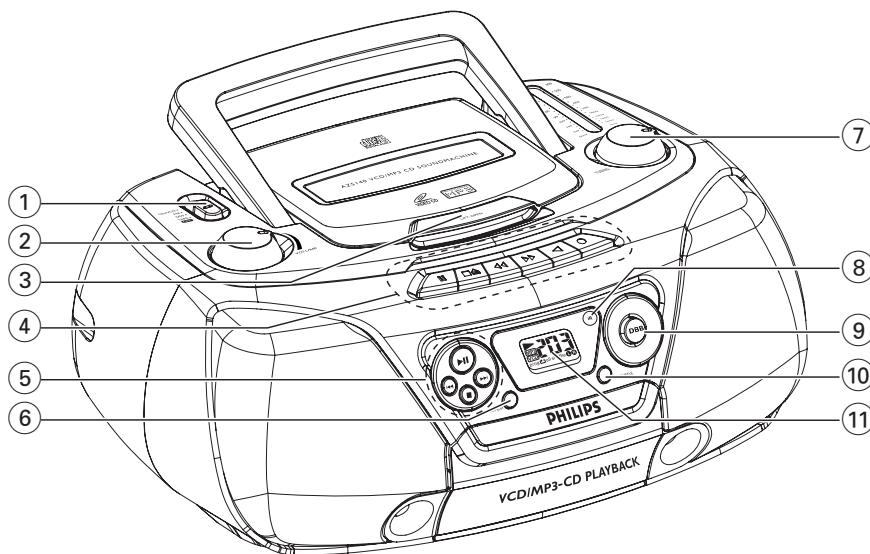

To avoid atmospheric interference all AM-measurements have to be carried out in a Faraday's cage.

CD

Use Audio Signal Disc SBC429 4822 397 30184 (replaces test disc 3)
L.P.F. = 13th order filter 4822 395 30204

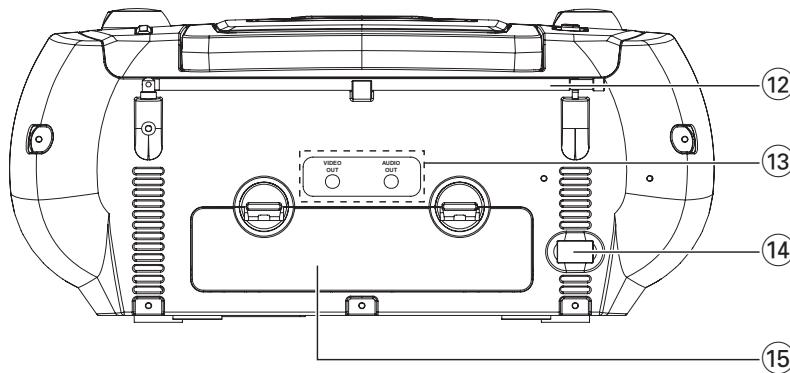

CONTROLS

TOP AND FRONT PANEL

- ① **Source selector** - power on/off switch and to select source of sound source:
CD•VCD/MW/FM/TAPE.
- ② **VOLUME** - to adjust volume level.
- ③ **LIFT - OPEN** - to open the CD door.
- ④ **Cassette keys:**
 - - to interrupt recording or playback.
 - ▲ - to stop the tape and to open the cassette holder.
 - ◀◀ / ▶▶ - to fast wind/rewind the tape.
 - ◀ - to start playback.
 - - to start recording.
 - ▶▶ II - to start or interrupt CD playback.
 - - to stop playback
 - ◀◀ / ▶▶ - to skip or search a passage or a track
- ⑤ **REPEAT** - to repeat a track/programme/entire CD playback
- ⑥ **TUNING** - to tune to radio stations
- ⑧ **iR** - infrared sensor for remote control
- ⑨ **DBB (Dynamic Bass Boost)** - for a more vivid bass response.
- ⑩ **SHUFFLE** - to play all tracks in random order
- ⑪ **LCD Display** - to show the VCD, MP3 functions and disc status.

BACK PANEL

- ⑫ **Telescopic aerial** - to improve FM radio reception
- ⑬ **VIDEO/AUDIO OUT** - connect to the TV or VCR VIDEO/AUDIO IN
- ⑭ **AC MAINS ~** - socket for mains lead
- ⑮ **Battery door** - to open the battery compartment

SUPPLIED ACCESSORIES

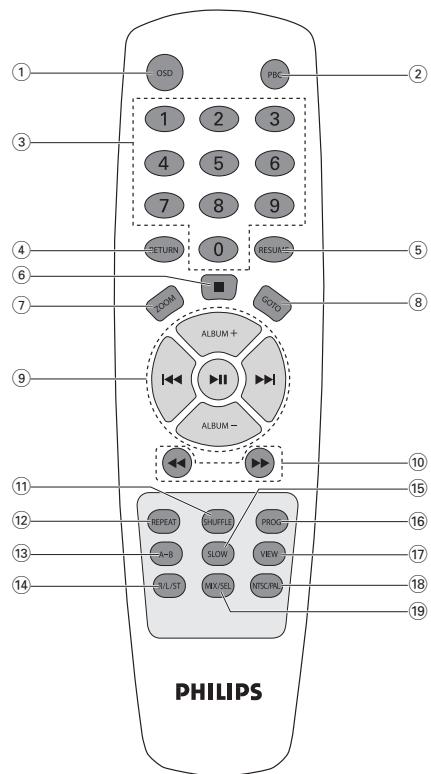

- | | |
|---------------------------|------|
| Remote Control | 1 pc |
| Mains Cord | 1 pc |
| Audio / Video Cable | 1 pc |

REMOTE CONTROL

- ① **OSD** - to switch on/off the on screen display on the TV screen.
- ② **PBC (PLAYBACK CONTROL)** - to switch on or off PBC mode (for VCD version 2.0 only).
- ③ **DIGITS 0 - 9**
for CD/VCD/MP3-CD - to select a track number.
(numbers consisting more than 2 figures must be keyed in within 2 seconds)
- ④ **RETURN** - to return to the previous MENU level during playback (for VCD with PBC on).
- ⑤ **RESUME** - to resume playback in stop mode.
- ⑥ **STOP ■**
- to stop playback or to clear a programme.
- ⑦ **ZOOM**
for VCD only to zoom in or zoom out picture.
- ⑧ **GOTO** - to start playback at any chosen time on the disc (for CD/VCD operation only and PBC mode is off).

REMOTE CONTROL

- ⑨ **▶II**
- to start or interrupt playback.
- ◀◀ ▶▶
for MP3-CD only to select previous/next title.
for CD/VCD to search backward/forward track.
- ALBUM+/-**
for MP3-CD only to select previous / next album
- ⑩ ◀◀ / ▶▶ (for CD/VCD/MP3-CD)
- to search back or forward.
- ⑪ **SHUFFLE** - When in CD/VCD mode, press to start or stop shuffle play mode (for VCD, only available in PBC off mode)
- ⑫ **REPEAT**
for MP3-CD to repeat a track, or whole disc.
for CD/VCD to repeat a disc track or the whole disc.
- ⑬ **A - B** - to playback a certain scene or passage repeatedly (for CD/VCD operation only).
- ⑭ **R/L/ST** - to select channel left / channel right / stereo sound, or to select a language in a bilingual VCD.
- ⑮ **SLOW** - to watch a VCD at a slower speed (for VCD operation only).
- ⑯ **PROG**
for CD/VCD/MP3-CD to programme disc tracks.
- ⑰ **VIEW** - to scan through a VCD with 9 pictures display on TV screen.
- ⑱ **NTSC/PAL** - to select the video output for NTSC or PAL system.
- ⑲ **MIX/SEL** - to select disc format (CD / MP3-CD) in a mixed mode disc.

POWER SUPPLY

IMPORTANT!

- For best CD/MP3-CD/VCD playback, please plug in your set to an AC power supply where convenient.
- If operated in DC mode, see below approximate playtime. (Playtime is also varied from different brand batteries) :

Battery type	Playtime
Alkaline	approximate 9 hrs
Zinc Cartonate	approximate 45 minutes

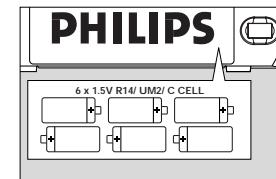

- The CD part of this system also serves as a Video CD player if you connect it to your TV set.
- Before viewing the Video CD, ensure that the set is switched to corresponding PAL or NTSC system of your TV set (exception Multi-system TV).

BATTERIES (NOT SUPPLIED)

Whenever convenient, use the mains supply if you want to conserve battery life. The battery supply will be switched off when the set is connected to the mains. Make sure you remove the plug from the set and wall outlet before inserting batteries.

Batteries

1. Open the battery compartment and insert six batteries, type **R14, UM2 or C-cells, (preferably alkaline)** with the correct polarity as indicated by the "+" and "-" symbols inside the compartment.

Remote control

1. Open the battery door and insert two batteries, type **AAA, R03 or UM4** (preferably alkaline).
2. Replace the compartment door, making sure the batteries are firmly and correctly in place.
3. Remove the batteries if they are exhausted or if they will not be used for a long period.
 - The incorrect use of batteries can cause electrolyte leakage and will corrode the compartment or cause the batteries to burst. Therefore:
 - Do not mix battery types, e.g. alkaline with zinc carbonate.
 - When inserting new batteries, replace all at the same time.
 - Remove the batteries if the set is not to be used for a long time.

Note :

- The battery supply is switched off when the set is connected to the mains.

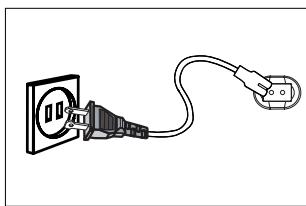

TV screen is disabled during CD / MP3-CD playing if your AZ5140 is battery powered.

Batteries contain chemical substances, so they should be disposed of properly.

GENERAL OPERATION

MAINS

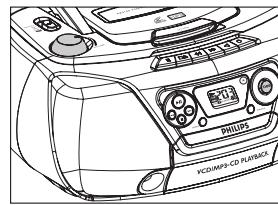

1. Check if the mains voltage as shown on the type plate (on the bottom of the set) corresponds to your local mains voltage. If it does not, consult your dealer or service organization.
2. Connect the mains lead to the **AC MAINS ~** socket and the wall socket.
→ The set is now ready for use.
3. To switch off the mains supply completely, pull the mains plug out of the wall socket.
→ Disconnect the mains lead when you change over to battery supply, or to protect the set during heavy thunderstorms.

The type plate is located on the bottom of the set.

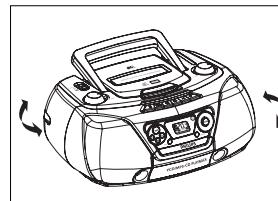

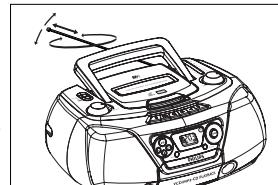

GENERAL OPERATION

1. To switch on the set, adjust the source selector.
2. Adjust the sound using the **VOLUME** and **DBB** controls.
3. To switch off the set, adjust the source selector to the **TAPE/OFF** position, with the cassette keys released.

RADIO RECEPTION

- 1 Set the source selector to **FM** or **MW**.
2. Adjust the sound using the **VOLUME** controls and the **DBB** switch.
3. Tune to a radio station using the **TUNING** knob.
 - For FM, pull out the telescopic aerial. To improve FM-reception, incline and turn the aerial. Reduce its length if the FM-signal is too strong (very close to a transmitter).
 - For MW, the set is provided with a built-in aerial, so the telescopic aerial is not needed. Direct the aerial by turning the whole set.
4. To switch off, set the source selector to the **TAPE/OFF** position (with the cassette keys released).

TROUBLESHOOTING

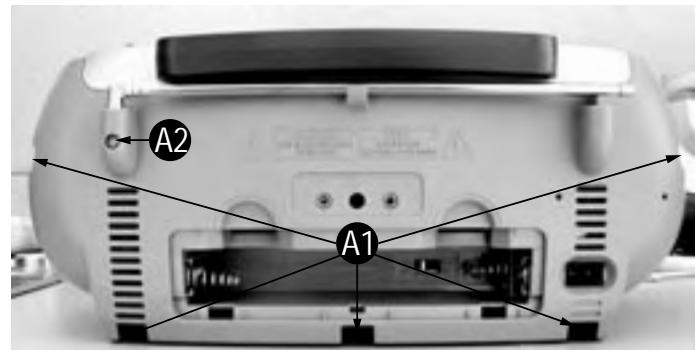

If a fault occurs, first check the points listed below before taking the set for repair.
If you are unable to remedy a problem by following these hints, consult your dealer or service centre.

WARNING: *Do not open the set as there is a risk of electric shock. Under no circumstances should you try to repair the set yourself, as this will invalidate the guarantee.*

Problem	Solution
CD/VCD OPERATION "NO DISC" is displayed	<ul style="list-style-type: none"> - Insert a disc. - Check if the disc is inserted upside down. - Wait until the moisture condensation at the lens has cleared. - Replace or clean the disc, see "Maintenance" - Use a readable disc or correct recorded format MP3-CD. - Connect the cable between the system and TV. - Change the system to the respective PAL or NTSC setting.
No picture on TV screen No colour on TV	<ul style="list-style-type: none"> - If the signal is too weak, adjust the antenna for better reception. - Increase the distance between the Receiver and your TV or VCR.
RADIO RECEPTION Radio reception is poor	<ul style="list-style-type: none"> - Clean deck parts, see "Maintenance". - Use only NORMAL (IEC I) tape. - Apply a piece of adhesive tape over the missing tab space.
TAPE OPERATION/RECORDING Recording or playback cannot be made	<ul style="list-style-type: none"> - Slide the source sector to TAPE/OFF. Remove and reconnect the AC power plug for 30 seconds and switch on the set again.
GENERAL The system does not react when buttons pressed/set does not work/no display on LCD.	<ul style="list-style-type: none"> - Adjust the volume. - Make sure the MP3-CD was recorded within 32-320 kbps (128kbps preferably) with sampling frequencies at 8 - 48 kHz (44.1kHz preferably).
Sound cannot be heard or is of poor quality	<ul style="list-style-type: none"> - Reduce the distance between the remote control and the system. - Insert the batteries with their polarities (+/- signs) aligned as indicated. - Replace the batteries. - Point the remote control in the direction of the system's IR sensor.
The remote control does not function properly	<ul style="list-style-type: none"> - Reduce the distance between the remote control and the system. - Insert the batteries with their polarities (+/- signs) aligned as indicated. - Replace the batteries. - Point the remote control in the direction of the system's IR sensor.

DISASSEMBLY DIAGRAM**A.Remove Back Cabinet**

- A1 remove screws M3x30 (5pcs)
A2 remove screws T3x7.5 (1pcs)

**B.Remove Top Cover**

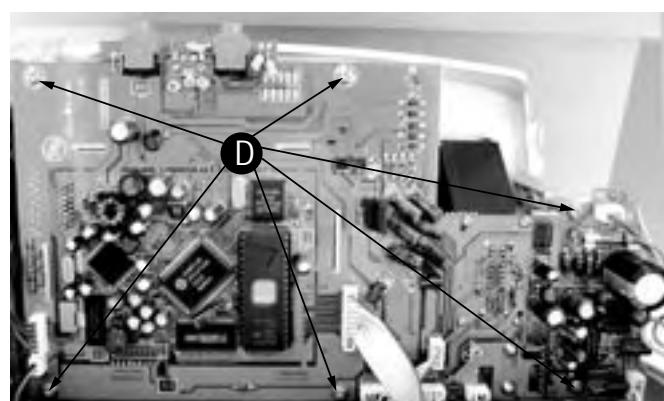

- A1 remove screws M3x10 (3pcs)

**C.Remove The Handle**

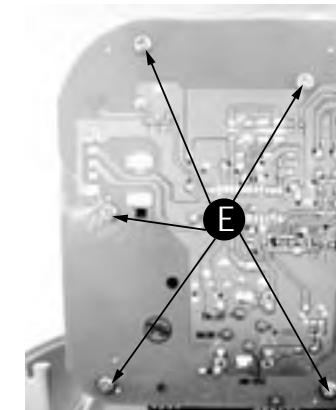

(press the two ribs vertical direction, and then slide)

**D.Remove Motherboard**

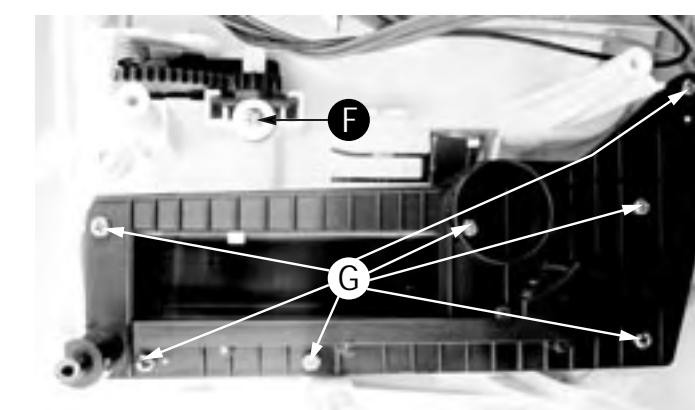

- D remove screws M3x11 (6pcs)

**E.Remove Tuner board**

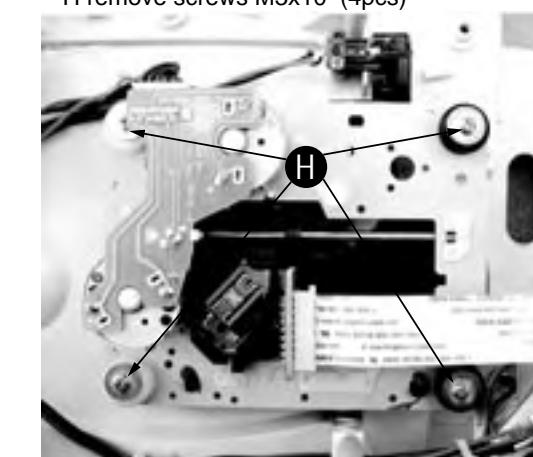

- E remove screws M3x10 (5pcs)

**F.Remove Tuner Slider Assy and then remove cd cover**

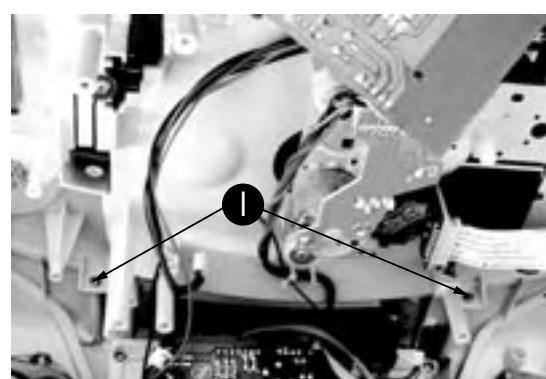

- F remove screws M3x10 (5pcs)
G remove screws M3x10 (5pcs)

**H.Remove CD Motor**

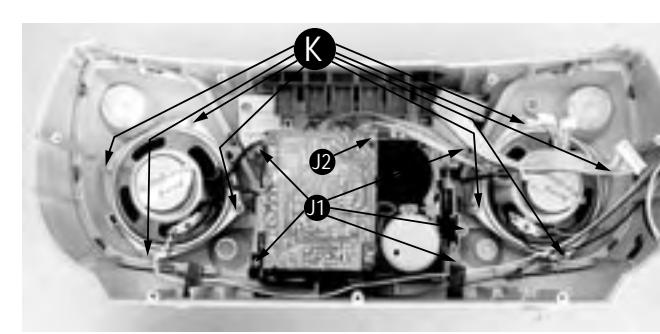

- H remove screws M3x10 (4pcs)

**I.Detach The Top Cover**

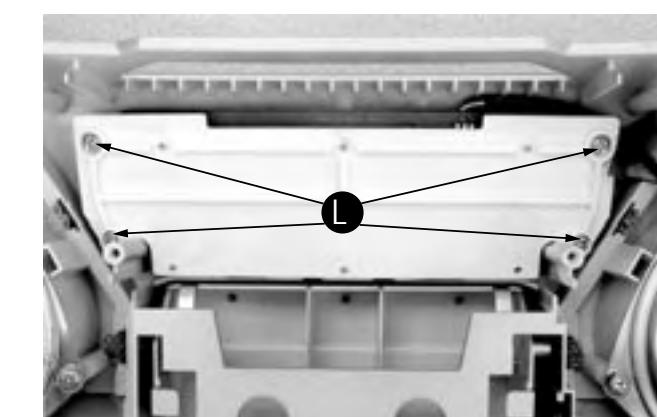

- I remove screws M3x15 (2pcs)

**J.Remove the Tape & Speaker**

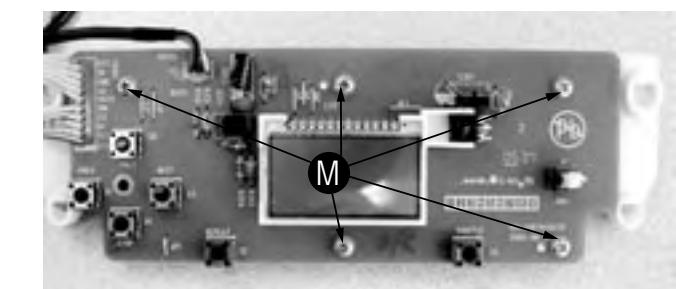

- J1 remove screws M3x10 (4pcs)
J2 remove screws M3x8 (1pcs)
K remove screws M3x8 (8pcs)

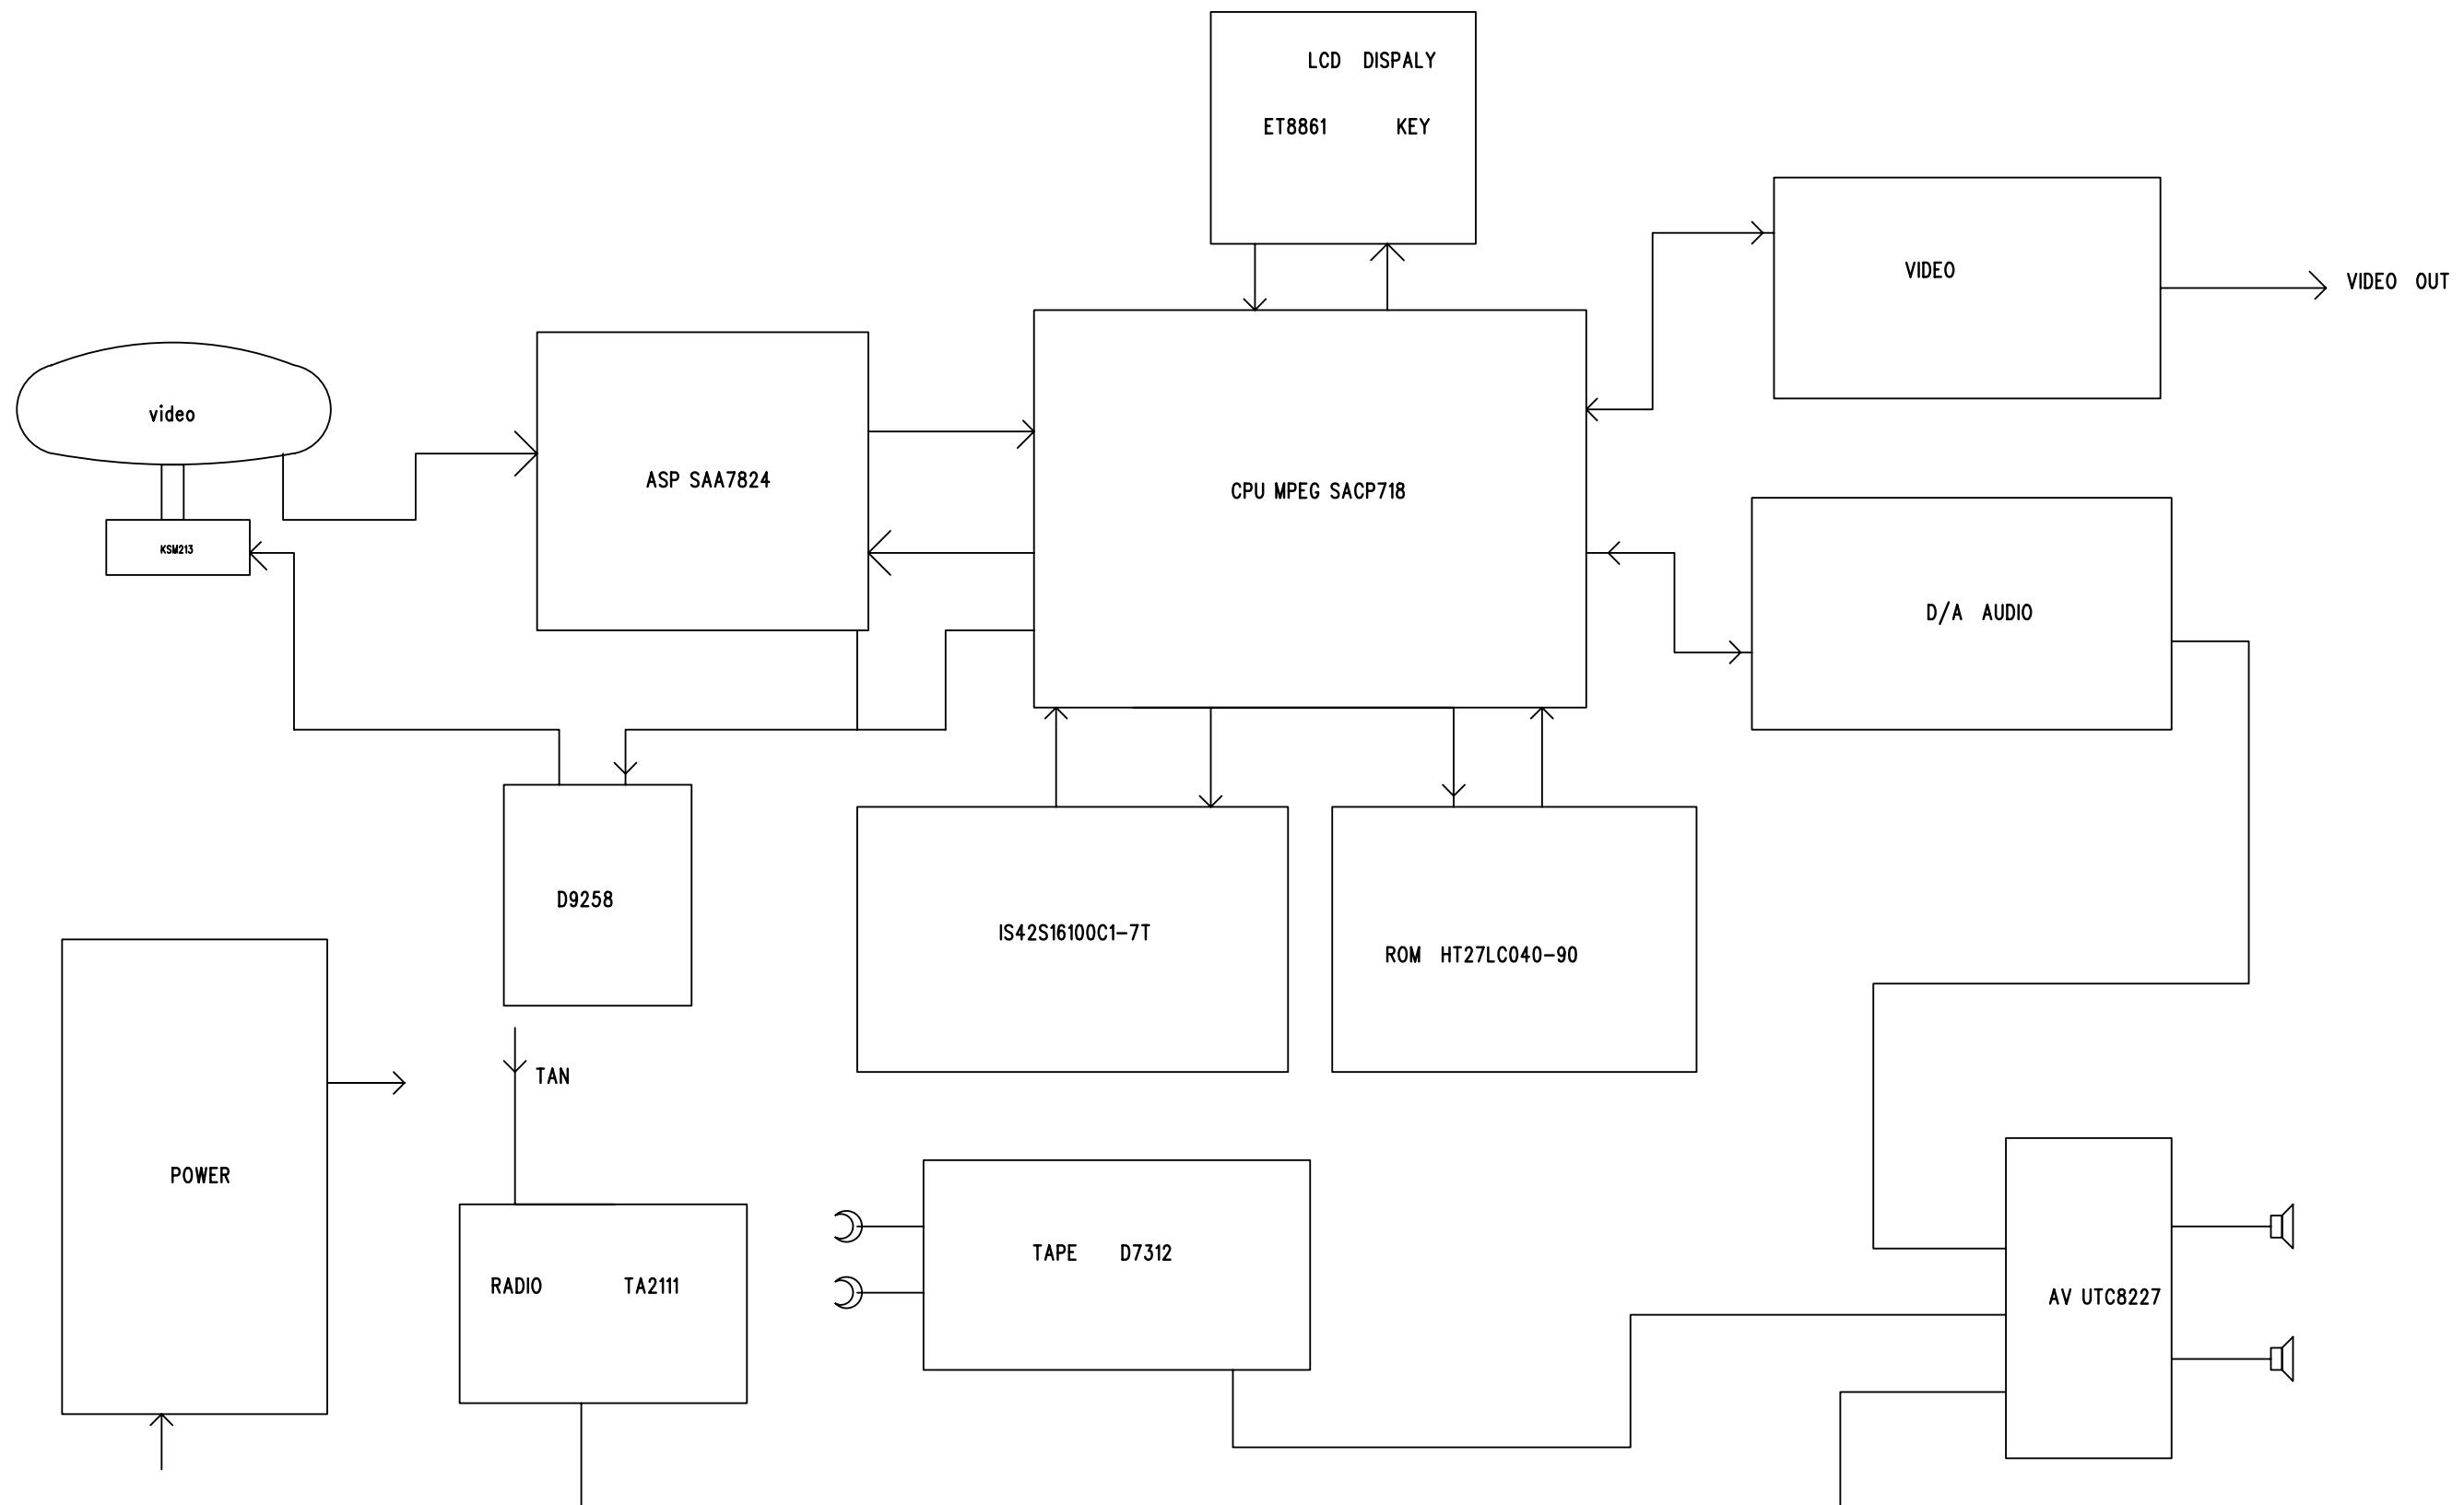

**L.Remove the Key Cover**

- L remove screws M3x8 (4pcs)

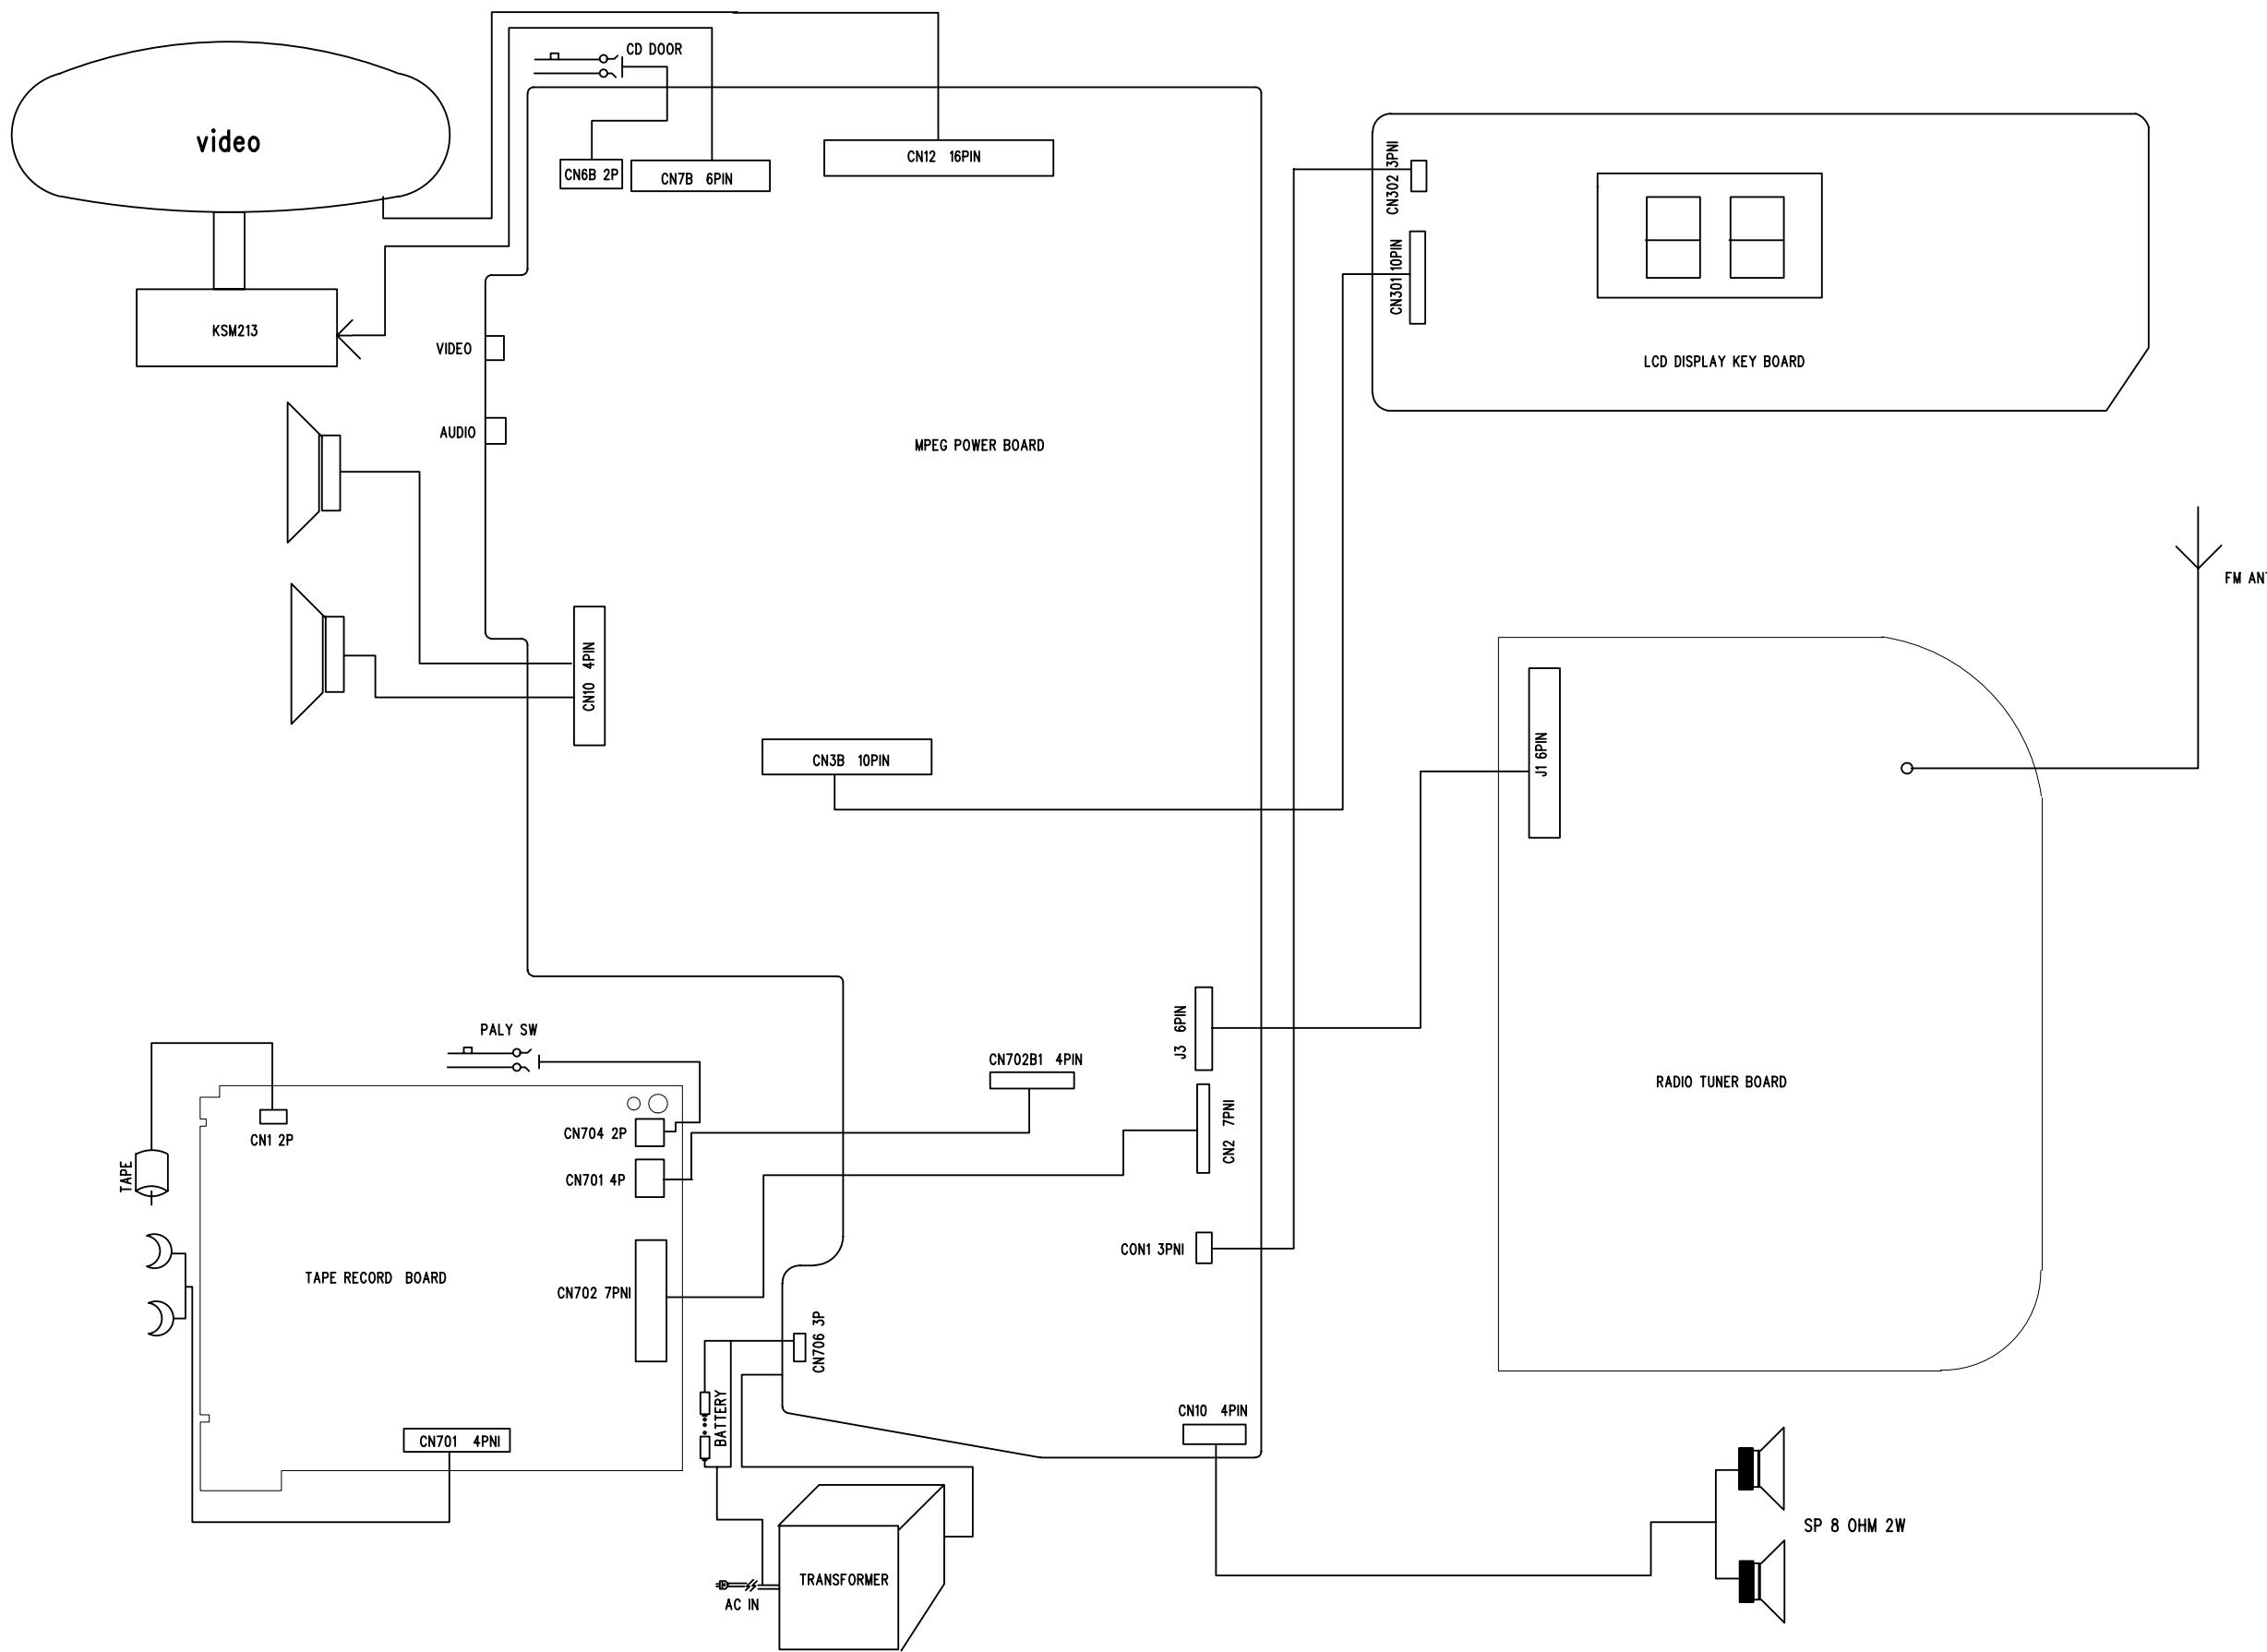

**M.Remove the Key Board**

- M remove screws M2.6x7 (5pcs)

REVISION LIST

Version 1.0 (3141 785 30810)

* Initial Release AZ5140/98/55/94

Version 1.1 (3141 785 30811)

* New version -/61 is introduced.
* Page 12-1 : Mechanical parts list adapted.
* Page 12-2 to 12-6 : Electrical parts list adapted.

Version 1.1 (3141 785 30812)

* New version -/93 is introduced.
* Page 12-1 : Mechanical parts list adapted.
* Page 12-2 to 12-6 : Electrical parts list adapted.
